- Organise and lead the customer experience team
- Coach fellow developers
- Contributing code across the stack to produce features end to end as part of a team
- Organise and be involved in design discussions regarding UX and UI

Hooq SG, Frontend Developer
OCT 2018 - MAY 2020

REACT REDUX NODE TYPESCRIPT

Hooq was a media streaming platform based in Singapore. Served primarily on AWS I worked with a team on the web frontend using React and proxied via a Koa server using Redis for caching

- Producing high quality reusable components
- Working with the team to produce high quality solutions whilst providing the best customer experience
- Work closely with other teams to produce well considered integrated solutions that scale with the customer demand

Loi Hein SG, Full Stack Developer
OCT 2018 - MAY 2020

ANGULAR VUE C# ENTITY FRAMEWORK

Loi Hein is a consumer goods company that produces, markets and sells fast moving consumer goods. My role was to work improving internal systems, migrating and updating

- Create functional and secure APIs using the .Net Core framework
- Revamp the internal systems to use modern design in Angular and Vue

P R O J E C T S

Chinsay AB, Intelligent Contract Platform

KNOCKOUT VUEJS TYPESCRIPT SCSS C# .NET CORE AZURE

Updating and migrating the frontend framework from the outdated highly coupled old frontend to VueJS to product a more user centric and dynamic experience

- Create and maintain component library using Storybook to catalogue components
- Ensure all components are well tested, unit tests, snapshot tests, etc
- Work closely with design to ensure all components meet design requirements

Hooq, Streaming Site PWA

REACT REDUX NODE KOA REDIS TYPESCRIPT

Working on the core web app using React 16.x to produce fully responsive modular frontends providing the best customer experience writing small well tested decoupled components

S K I L L S

JavaScript	ReactJS	Redux	NodeJS
CSS/ SCSS	C#	SQL Server/ MySQL	Agile/ Scrum
Azure/ AWS	TypeScript	Cypress	TDD
Jest	RESTful APIs	NestJS	Docker
